The Commission previously heard from members of the public at a Town Meeting, and from current and former mayors, finance and accounts commissioners, as well as city managers from Corning and Batavia. Committees are also interviewing city employees and community stakeholders about how the current charter is meeting the needs of the City.

The charge of this Commission is to review the current city charter, propose such revisions or amendments as the Commission may deem appropriate, make a report to the public, and submit any such revisions or amendments to the electors of the city at a public referendum. By law, the review takes place every ten years.
